Thursday, Nov. 18
9 a.m. – 3 p.m.

IT FORUM MEMBERSHIP

- **\$249 per OBL member**
- **\$195 for each additional registrant from the same institution**
- **\$498 per nonmember**

STILL TIME TO REGISTER!

The OBL IT Forum returns to offer an ongoing platform for IT and cybersecurity professionals to discuss relevant topics, find solutions and exchange ideas relating to the IT and cybersecurity within their organizations. As in the past, agendas are built by attending members of the forum. The forum, facilitated by SBS CyberSecurity and Infotex, has been designed with insight from operations and technology leaders from the community banking industry to provide a mix of peer sharing and discussion with free exchange of ideas on issues that concern them most, as well as guided education and lecture from our friends at SBS and Infotex.

The OBL IT Forum features general sessions and open forum discussion time for members, as well as an opportunity to attend managerial and technical breakout sessions. Please note, managerial sessions will feature topics related to the Management Information Security Program from the “security” side, while technical sessions will feature topics related to IT operations and implementation of technical networking controls.

What do member bankers have to say about the OBL IT Forum?

The IT Forum always offers viable content that has practical application in my current duties at my bank. It is definitely a value added.

This program fills the need for current information on many regulatory hot items, and is a good place to discuss what others do and not do and why.

Topics covered at the IT Forum are full of information I am able to put into practice right now!

It is great seeing fellow IT folks at the event and sharing technology ideas and practices with them. Part of the learning comes not only from attending the classes, but talking among others, as well.

Program Highlights

- Discuss current industry challenges in a roundtable forum
- Form relationships with other IT and cybersecurity professionals
- Learn about the latest hot-topic technology and cybersecurity issues, threats and trends affecting other community banks
- Break down the newest guidance from the FFIEC, other regulatory agencies and other industry best practices
- Discover ways to implement new technologies, guidance, and best practices in your environment
- Answer questions about your most pressing IT and cybersecurity challenges
- Take away real-world solutions to use in your own Institutions
- Compare your own IT plans, performance and goals with those of your peers
- Stay on top of the latest compliance issues and examiner expectations, and learn how your peers will approach them.

Who Should Attend?

This forum is designed for all individuals tasked with governing, managing, overseeing and implementing technology at financial institutions, including CISOs, ISOs, IT/network managers, network administrators, IT specialists and other individuals tasked with managing or overseeing IT or cybersecurity within your bank. Senior management and directors are also invited to attend to better understand the opportunities and challenges that cybersecurity presents in institutions of all sizes.

Contact Information

For more information, please contact Susan Poling Jones at 614-340-7611 or spoling@ohiobankersleague.com.

- How to Effectively Train Your People and Build a Culture of Cybersecurity
- Other Hot Topics and Regulatory Trends
- Information and Technology Risk Monitoring
- Improving Cyber Breach Detection, Network Visibility and Incident Response

2021 OBL IT Forum

About the Instructors

Jon Waldman, president of the SBS Institute and EVP of Information Security Consulting at SBS CyberSecurity, is a Certified Information Systems Auditor and Certified in Risk and Information Systems Control who received his Bachelor of Science in Computer Information Systems with a minor in Business Administration from Dakota State University and his Master of Science in Information Assurance with an emphasis in Banking and Finance Security from Dakota State University. Jon is also a co-founder of SBS, and over the last 15 years, has helped hundreds of community banks across the country create and implement comprehensive, valuable and manageable Information Security Programs.

Dan Hadaway, CISA, CISM, CRISC is founder and managing partner of Infotex. Prior to founding Infotex in 2000 to serve community banks, Dan's first experience in IT governance came in 1986, when he wrote his first Acceptable Use Policy, and conducted his first Information Technology risk assessment in 1989. Dan facilitates the annual Indiana Bankers Association Cybersecurity Conference, and speaks regularly at various events, conferences, workshops and seminars in the Midwest, including the OBL Tech Conference and the OBL IT Forum. Published in Bank Notes, Ohio Record, Hoosier Banker, and the ABA's Compliance Magazine, Dan also helped to write the original CRISC manual for ISACA. He blogs at blog.infotex.com, or look for his movies on movies.infotex.com.

Cancellation Policy

Refunds for the program will be granted for cancellations received in writing to education@ohiobankersleague.com by November 11, 2021. Cancellations will be subject to a \$25 processing fee. No refunds or credits will be granted for cancellations received after November 11. Substitutions are always welcome.
