

2022 OBL IT Forum

The OBL IT Forum returns to offer an ongoing platform for IT and cybersecurity professionals to discuss relevant topics, find solutions, and exchange ideas relating to IT and cybersecurity within their organizations. As in the past, agendas are built by attending members of the forum. The forum, facilitated by Jon Waldman of SBS CyberSecurity and Dan Hadaway of infotex, has been designed with insight from operations and technology leaders from the community banking industry to provide a mix of peer sharing and discussion with free exchange of ideas on issues that concern them most, as well as guided education and lectures from seasoned facilitators.

The OBL IT Forum features general sessions and open forum discussion time for members, as well as an opportunity to attend managerial and technical breakout sessions. Please note, managerial sessions will feature topics related to managing your Information Security Program from the “security” side, while technical sessions will feature topics related to architecture, infrastructure and implementation of technical networking controls.

PROGRAM HIGHLIGHTS

- Discuss current industry challenges in a roundtable forum
- Form relationships with other IT and cybersecurity professionals
- Learn about the latest hot-topic technology and cybersecurity issues, threats, and trends affecting other community banks
- Break down the newest guidance from the FFIEC, other regulatory agencies, and other industry best practices
- Discover ways to implement new technologies, guidance, and best practices in your environment
- Ask and find answers to questions about your most pressing IT and cybersecurity challenges
- Take away real-world solutions to use in your own Institutions
- Compare your own IT plans, performance, and goals with those of your peers
- Stay on top of the latest compliance issues and examiner expectations, and learn how your peers will approach them.
- Participate in regulator panel discussions as new guidance is published.

WHO SHOULD ATTEND?

This forum is designed for all individuals tasked with governing, managing, overseeing and implementing technology at financial institutions, including CISOs, ISOs, IT/network managers, network administrators, IT specialists and other individuals tasked with managing or overseeing IT or cybersecurity within your bank. Senior management and directors are also invited to attend to better understand the opportunities and challenges that cybersecurity presents in institutions of all sizes.

CANCELLATION POLICY

Refunds for the program will be granted for cancellations received in writing to education@ohiobankersleague.com seven days prior to each session. Cancellations will be subject to a \$75 processing fee. No refunds will be granted for cancellations received within seven days of the program. Substitutions are always welcome.

Thursday, November 10

IT Forum sessions will be held at Quest Conference Center, 9200 Worthington Road, Westerville, OH 43082, from 9 a.m. – 3 p.m.

2022 OBL IT Forum

ABOUT THE INSTRUCTOR

Jon Waldman is a co-founder and executive vice president of Information Security Consulting for SBS CyberSecurity, as well as SBS' chief people officer and the president of the SBS Institute. Over the past 17 years, Jon has helped hundreds of organizations make more informed business decisions by identifying and understanding cybersecurity risk. Jon maintains his CISA, CRISC, and CDPSE certifications, and holds a BS in CIS and a MS in Information Assurance from Dakota State University, a Center of Academic Excellence in Information Assurance Education designated by the NSA. He is also a blog author, an instructor for SBS Institute courses, and frequently speaks on cybersecurity topics at a variety of events and webinars across the country.

Dan Hadaway, CISA, CISM, CRISC is founder and managing partner of infotex. Prior to founding infotex in 2000 to serve community banks, Dan's first experience in IT governance came in 1986, when he wrote his first Acceptable Use Policy, and conducted his first Information Technology risk assessment in 1989. Dan facilitates and speaks regularly at various events, conferences, workshops and seminars, including the OBL Tech Conference and the OBL IT Forum. Published in Bank Notes, the Ohio Record, Hoosier Banker Magazine, and the ABA's Compliance Magazine, Dan also helped to write the original CRISC manual for ISACA. He blogs at blog.infotex.com, or look for his movies on movies.infotex.com.
